Sub : Urgent Repair and Maintenance of SSE/Tele-II Office at PRTN.

Respected Sir,

During my recent visit to the SSE/Tele-II Office at PRTN, I personally observed its extremely dilapidated condition, which poses serious risks to the staff working there. The following critical issues were noted :

- 1. Leaking Ceiling :** The ceiling of the office is severely leaking, making it unsafe and unhygienic for staff.
- 2. Damaged Windows & Doors :** Most of the windows and doors are broken, creating security concerns and allowing reptiles, including snakes, to enter the office frequently.
- 3. Cracked Walls & Compound :** The office walls and surrounding compound have visible cracks, indicating structural weakness.
- 4. Open Drainage Chambers :** Just near the office entrance, drainage chambers were found uncovered, and the chamber covers are in a broken condition, creating a hazard for staff movement.

The current state of the office is not just uncomfortable but also life-threatening for the employees. Immediate repairs and safety measures are urgently required, including:

Fixing the leaking ceiling.

Repairing/replacing broken doors and windows.

Strengthening and repairing the cracked walls and compound.

Covering the open drainage chambers and replacing broken chamber covers.

In view of the serious safety concerns, I request you to take urgent action on a top-priority basis to ensure the well-being of the staff working at SSE/Tele-II Office, PRTN.

Action taken may please be advice to union.

Sanjay Pawar.
Divisional Secretary
WREU / BRC
